The late Samuel Colt, well known here, was one of the original organizers of THE MUTUAL LIFE INSURANCE CO. of New York. At the time of his death he held policy No. 135, which was originally written for only \$3,000. There were \$5,700 dividends added to this policy during his lifetime, of which he drew and used during his life \$2,399.09, leaving a balance of \$3,301 in dividends which were added to the policy and paid at his death, his heirs thus receiving in cash \$6,301, or more than double the amount of the original policy. If Mr. Colt had used no dividends during his life his estate would have received \$8,700.09, or nearly three times the amount of the original insurance. What other company can show such a record? Mr. Colt drew out and spent in his lifetime dividends amounting to four fifths of the face of his policy, and his heirs at his death received in cash more than double the amount of the face of his policy.

## Burial of the Victims.

HAZLETON, Pa., September 13.—The situation is quiet. Preparations for the funeral of the Catholic victims are being conducted in compliance with the demands of the authorities, who request quiet obsequies by marching, but no bands will be allowed. Gen. Cobin summoned clergy to a conference with this and in view. Cobin's announcement that he would not allow deputies to be arrested causes great indignation. Interest centers in the action of the Lehigh & Wilkesbarre employees, who have agreed to go to work tomorrow. Troops are lined up back of the little Polish church, but no trouble is expected.

HAZLETON, Pa., September 13.—All is quiet here now. The saloons were closed by order of Gen. Gobin this morning and will remain shut until 4 p. m. General Gobin will not tell what took place at the conference with the priests this morning. The funerals of the twelve victims took place this afternoon. The first procession with three bodies started from Harwood at 1:10, attended by 3,000 people. The procession was met outside the city by a delegation of citizens. They marched north on Laurel St. to St. Peter's and St. Paul's churches, where services were conducted, after which they were interred in the cemetery in one grave, blasted out of solid rock.

The Kansas Disaster.  
EMPORIA, Kan., Sept. 13.—The inquiry on the Santa Fe wreck is now being held by Coroner Gardner and shows that the red light was shown at Laing. Railroad men here are inclined to blame Dispatcher King of Topeka. They claim he disobeyed rules by changing the former orders while the train was between two stations with no intermediate station at which to stop the train. Much interest is manifested in the court house is crowded. Many railroad officials will be in attendance this afternoon.

The Luetgert Trial.  
CHICAGO, September 13.—Today marked the opening features of the week in the Luetgert murder trial. The prosecution is that the case will drag along another month. Reviewing the developments of last week, the state still suffered one serious disappointment, that of Professor Gibson's admission that the flesh he analyzed was not different from the flesh of any warm blooded animal, while the points in favor of the state were numerous and of the greatest importance.

Battle With Tramps.

## CUBAN CRISIS AT HAND.

General Woodford May Stir Up Spain This Week.

## THE CABINET'S NOTE.

The Impetuous Spaniard May be Called Down if he Objects to Uncle Sam's Friendly Interference in Behalf of Cuba.

WASHINGTON, September 13.—During the coming week the Cuban question is likely to come sharply to the front. Today Mr. Woodford is to present his credentials to the queen regent of Spain. Whether or not he presents also the Cuban note which he carried with him from Washington, depends wholly upon General Woodford himself. The time at which the note is to be presented is left to his discretion. The note prepared by President McKinley and Assistant Secretary of State Day was read to the full cabinet. Its chief significance is that the United States asks to be considered a party to the settlement of the Cuban question. The note expresses the president's great desire to continue the friendly relations between the two nations, and his hope is that Spain will accept the aid of the United States in bringing the war to an end. Except for excitability of the Spanish and their traditional hostility to the United States in everything that concerns Cuba, there is no reason why the note should cause any disturbance in the relations of the two countries or give alarm to commerce.

SPRINGFIELD, O., Sept. 13.—A free silver camp meeting to be held here Wednesday Sept. 15th promises to be the greatest event of its kind ever held in the United States. Waiting for Reports.  
Manager Van Vleck of the G. H. went to Los Angeles this afternoon with his private car to bring his family home. He says there was another yellow scare in New Orleans last night which increases the annoyance caused by the previous reports which interfere with traffic. But he does not anticipate any further trouble. He says in the matter of the north side ditch that he is aware of the importance of the scheme, and has been talking it over with the mayor. The T. & P. is also interested, as flood waters will run down into their territory, and they will take a hand as well as the G.
